PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate at the University of Sri Jayewardenepura with hands-on experience building full-stack web applications, Flutter mobile apps, and AI-powered tools. Proficient in React, Node.js, PHP, MySQL, and Flutter, with applied experience integrating LLM APIs (Gemini, Claude). Expanding into DevOps (Linux, Docker, Kubernetes, Jenkins) and Machine Learning. Passionate about building locally relevant technology and continuously growing across the full software development stack.

TECHNICAL SKILLS

Languages	Java, Python, PHP, Dart, SQL, HTML5, CSS3
Frontend	React.js, Vite, CSS Modules, Tailwind CSS, Leaflet.js
Backend	Node.js, Express.js, PHP (Apache), REST APIs, Spring Boot (learning)
Mobile	Flutter, Google ML Kit
Databases	MySQL, relational schema design
DevOps	Linux, Docker, Kubernetes, Jenkins, Git, GitHub, Vercel, Render
ML / AI	Gemini 2.5 Flash, Claude API, scikit-learn (learning), OpenWeatherMap API, Unsplash API
Tools	VS Code, Playwright, python-pptx

CERTIFICATIONS

YouTube Labs - Kubernetes Crash Course	Credential Link	2026
AWS Academy Graduate - Cloud Foundations	Credential Link	2026
Crash Course: Linux For Absolute Beginners	Credential Link	2026

EDUCATION

Bachelor of Science(Hons) in Computer Science	2023 – Present
University of Sri Jayewardenepura, Nugegoda, Sri Lanka	
G.C.E. Advanced Level (Physical Science Stream)	2022
Ananda College, Colombo 10, Sri Lanka	
▸ Mathematics — C Physics — C Chemistry — B	
Diploma in Information Technology (DITEC)	Completed
ESOFT Metro Campus, Sri Lanka	
▸ Covered core IT fundamentals including programming, networking, database concepts, and software development practices	

WORK EXPERIENCE

Customer Care Executive

Nov 2023 – Apr 2024

Startek, Sri Lanka

- ▶ Handled inbound and outbound customer interactions, resolving queries and complaints while maintaining high satisfaction standards
 - ▶ Developed strong communication, problem-solving, and multitasking skills in a fast-paced, team-oriented environment
 - ▶ Gained experience with CRM tools and internal ticketing systems for issue tracking and escalation management
-

PROJECTS

Lanka Travel Planner

April 2026

React · Vite · Gemini 2.5 Flash · Leaflet.js · OpenWeatherMap · Unsplash API

- ▶ Built a full-featured AI travel planning web app for Sri Lanka — personalized itineraries with budget filtering, hotel/food recommendations, and transport routes
- ▶ Integrated Gemini 2.5 Flash for dynamic itinerary generation and conversational chat with structured JSON prompt engineering
- ▶ Implemented Sinhala/English bilingual toggle with full itinerary regeneration; resolved caching bugs in state management
- ▶ Embedded interactive Leaflet.js maps, live weather via OpenWeatherMap, and photo galleries via Unsplash API

Personal Portfolio Website

April 2026

React · Vite · CSS Modules · Node.js · Express · Nodemailer · Vercel · Render

- ▶ Designed and deployed a professional portfolio site with Midnight Purple & Gold theme using Cormorant Garamond and DM Mono typography
- ▶ Built a Node/Express backend with Nodemailer for functional contact form email delivery; resolved CORS and deployment issues across Vercel and Render
- ▶ Implemented component-based architecture with lazy loading, responsive design, and optimized asset delivery

AI Notes Summarizer — Flutter Mobile App

January 2026

Flutter · Dart · Google ML Kit · Gemini 2.5 Flash · Syncfusion · pdfx

- ▶ Developed a cross-platform mobile app performing OCR on camera/gallery images and PDFs, then using Gemini 2.5 Flash for paragraph summaries, bullet points, key topics, and quiz questions
- ▶ Implemented chunk-based summarisation to handle API rate limits; resolved ML Kit Isolate incompatibility and iterated through model deprecations
- ▶ Added PDF export of summaries using Syncfusion; optimised APK build size and resolved CamScanner watermark edge cases

Inventory Management System — Group Academic Project

March 2026

PHP · MySQL · Apache · HTML · CSS · JavaScript

- ▶ Delivered a full-stack inventory system with role-based access (Admin, Manager, Cashier), real-time stock updates, supplier management, and expiry tracking
 - ▶ Designed a 3NF normalized relational database schema; contributed to backend PHP logic and front-end UI
-

ADDITIONAL INFORMATION

Languages: English (Professional), Sinhala (Native)

Interests: AI/ML applications, DevOps, locally relevant technology, open-source development, cricket analytics

Available for internships and part-time software development roles. Portfolio and project source code available at the links above.
